

Sheboygan County Planning & Conservation Department is partnering with UW-Stevens Point & UW-Madison Division of Extension Center for Watershed Science and Education.

Together we are offering private well owners in the **Towns of Lyndon & Mitchell** to have their well water tested for a variety of common water quality concerns at a discounted rate.

DETAILS:

Pick up sample kits on Friday Jan 15th from 8AM-5PM at the Lyndon Town Hall.

Take samples early Tuesday morning on Jan 19th and then return the bottles to the Lyndon Town Hall between 8AM and 5PM.

Sampling is easy and takes less than 15 mins

Please pay on kit pick up day- Friday Jan 15th
*Cash or Check, made out to Sheboygan County Treasurer

Extension
UNIVERSITY OF WISCONSIN-MADISON

WHY PARTICIPATE?

The majority of private well contaminants are not detectable by taste, smell, or sight.

The only way to ensure your well is providing quality drinking water is through testing.

For more information and a list of frequently asked questions, please go to either of the Town's websites at lyndonshebcowi.gov/ or townofmitchell.com

*This program is only available to the Town of Lyndon & Mitchell's private well owners through a rotating annual Sheboygan County Cost-Share Program.

CONFIDENTIAL RESULTS

Water samples will be tested at the UW-Stevens Point Lab.

Results are confidential and returned in-person on Tuesday March 9th from 4-5 or 6-7 PM at the Lyndon Town Hall.

There will be a generalized presentation helping well owners understand their results and how to best care for their onsite wells for healthy drinking water.

***Can't attend the presentation?**
Results not picked up will be mailed with guidance documents.

DATES TO REMEMBER
